### CTT Expo 2023 ready to achieve a record

The 23rd International Trade Fair for Construction Equipment and Technologies [CTT Expo](#) exceeds the organizers' expectations several times over in terms of exhibition space, number of exhibitors and interest from visitors. The synergistic effect of CTO Expo and COMvex, co-located with CTT Expo, has a beneficial effect on all the indicators.

It can already be noted that CTT Expo 2023 will exceed at least twice the size of the previous year exhibition. The high demand of the market for participation in the event has resulted in the growth of outdoor exposition space by 40% more than it was planned for three months. The February exhibition size of CTT Expo is over 60,000 m<sup>2</sup> compared to the total area of 37,000 m<sup>2</sup> in 2022. At the same time applications for participation continue to be actively received a month before the sales closing. The organizer is now close to make a decision to expand the exposition. Companies have the opportunity to join the main trade fair of construction equipment and technology until March 28 included.

The large-scale exposition will be represented by **700+ exhibitors** from 8 countries: Russia, Belarus, India, Italy, Kazakhstan, the People's Republic of China, Pakistan and Turkey. The largest booths will be of XCMG 2002 m<sup>2</sup>, TECHSTROYCONTRACT 1710 m<sup>2</sup>, RUSBUSINESSAVTO 1567 m<sup>2</sup>, SANY 1555 m<sup>2</sup>, LIUGONG 1209 m<sup>2</sup>, ZOOMLION 1200 m<sup>2</sup>. Among the companies that have confirmed their participation are ELKON, LGMG, MEKA, MST, SHANTUI, SHACMAN, AMKODOR, ZYPTECH, GC VERTIKAL, KRANEKS, KUDESNIK, NLMK, NFLG, OMG SDM, PROFESSIONAL GLOBAL, PST, PUTZMAISTER-

Simultaneous co-locating of the international exhibition of commercial vehicles and technologies [COMvex](#) and the International exhibition of spare parts, automotive aftersales market and service [CTO Expo](#) is a unique distinctive feature of this year's event concept. **The exposition of trade fairs will be presented in Crocus Expo halls 13, 14, 15 of pavilion 3 and outdoor area in front of the pavilions 1, 2, 3 which was enlarged considerably compared to the last year.** The synergy of industrial exhibitions promises to become the largest event in the market of construction and commercial machinery, as well as in the industry of spare parts and after-sales service.

*"Our venue has always been a reflection of the situation in the construction industry market. This year we will present an even more comprehensive picture of the three complementary areas - construction equipment, commercial vehicles and after-sales service - each of which will be represented by a separate full-fledged strong project. We have reached all of our goals. Negotiations are underway with a number of major players. I would presume that the total area of the three projects will be close to 100 000 m<sup>2</sup>, the number of exhibitors will approach 1000 participants. We are already seeing heightened interest from the specialized audience, the visitor registration rate is much higher than last year. We expect more than 30,000 specialists,"* - says Marina Vashurkina, CTT Expo Exhibition Director.

The number of specialists who received an electronic ticket for the exhibition in the first weeks of registration opening is 5 times higher than the last year. It is also worth noting that visitors are active not only from Moscow and the Central Federal District, but from all regions of Russia and neighboring countries. Visitor registration is open on the official site of the event since February 1: <https://ctt-expo.ru/en/> .

## **Business program**

CTT FORUM business program is traditionally structured according to the topic days:

May 23 - road construction and construction transport;

May 24 - mining industry

May 25 - rental, leasing and insurance;

May 26 - demolition technologies and environment.

Actual topics of conferences and round tables are carefully selected by partners from leading professional associations, including: Concrete Road Association, ID-marketing research company, National Association of Construction Machinery (NAAST), International Association of Foundation Contractors and others.

CTT MINING will be highlighted as a section that has been growing in interest among the exhibition audience over the past few years. The 3rd international conference "Future of Mining" will be held as part of the mining industry day. The Academy of Mining Sciences and Mining Industry Journal will be co-organizers, as in previous years. In 2023 the event will be strengthened by the support of the Non-profit partnership for mining industries of Russia. In addition to the business program, participants and guests of the event will be able to visit a special exposition of machines and equipment for mining, transportation and processing of minerals at the exhibition, take part in organized negotiations, explore the experience and offers of machine-building and service companies of the Russian mineral industry complex.

### **Construction Equipment Innovations in Russia Award Ceremony**

The award ceremony for the winners of the Contest "Construction Equipment Innovations in Russia" will be held as part of the evening program for the second day of the exhibition. Based on the opinion of an independent jury as well as online voting by market experts, the best representatives in their category who meet modern requirements and innovations in construction machinery win every year.

### **Nominations 2023:**

- Attachments of the year
- Backhoe loader of the year
- Components of the year
- Concrete mixing plant of the year
- Concrete pump of the year
- Crushing equipment of the year

- Dump truck of the year
- Excavator of the year
- Skid steer loader of the year
- Wheel loader of the year

Applications for participation are accepted until April 17. All details on the site <https://construction-innovation.ru/en>

General media partners of CTT Expo 2023 are [Construction Equipment and Technologies](#) (CTT Digest) magazine and [Commercial Vehicles and Technologies](#) (KTT) magazines.

**The team of organizers is pleased to invite companies, organizations, and professional audience to participate and cooperate in the largest synergistic industry event of the year from May 23 to 26, 2023 in the Crocus Expo.**

**CTT Expo** - leading trade fair for construction equipment and technologies in Russia and Eastern Europe. The 20-year history of the event confirms its unique communication platform status. The show inspires innovation and serves construction industry development. Every year CTT Expo brings together market players of construction, special and commercial equipment, machines and vehicles, spare parts and service, as well as developers of technologies and innovative solutions for construction machinery at Crocus Expo - one of the largest and modern fairgrounds of the world. CTT Expo is privileged by support of strong partner network, delivering a unique business program framework. In 2022 the exhibition area - 37 000 sq.m., the number of exhibitors - 288 companies from 7 countries, the coverage across Russia - 80 regions. The total number of visitors - 24 594.

**COMvex** - international trade fair for commercial vehicles and technologies, covering freight and passenger vehicles, light commercial vehicles, electric vehicles, automotive spare parts and components, trailers and semi-trailers, superstructures, telematics, IT-development, and services. In 2023 the trade fair will be held for the first time in Crocus Expo, in pavilion 3 and outdoor area together with CTT Expo.

**CTO Expo** - international trade fair for spare parts, automotive aftersales market and service. It covers such sections as spare parts and components, diagnostic and repair equipment, accessories and customizing, batteries and electronics, oils, car wash and care, telematics, IT and digital solutions. In 2023 the trade fair will be held for the first time in Crocus Expo, in pavilion 3 and outdoor area together with CTT Expo.

**CTT EXPO, LLC** - organizer of the leading trade fair for construction equipment and technologies in Russia - [CTT Expo](#), international trade fair for commercial vehicles and technologies - [COMvex](#), international trade fair for spare parts, automotive aftersales market and service - [CTO Expo](#), [Construction Equipment Innovations in Russia](#) Award, [The Best Commercial Vehicle of the Year in Russia](#) Award.
